Updates and announcements due to COVID-19  
(as of September 1, 2020)

For the most up to date information about health, safety and university policies and operations, please go to https://healthalerts.stanford.edu and you can find the most recent (August 28, 2020) Order of the Health Officer of Santa Clara County here.

OAPE remains open for limited services in a virtual capacity at this time and has shifted many of our core programs to reflect university policies and guidelines put forth by President Marc Tessier-Lavigne in his August 13, 2020 update.

The following sections will be updated as more information heading into spring quarter becomes available.

**Parties Update**
Due to the current Santa Clara County Public Health Order, the Office of Alcohol Policy & Education (OAPE) will not be approving organization or residential parties for the remainder of the 2019-2020 academic year. Students can socialize virtually and may lawfully and responsibly consume alcohol in their private rooms. However, reimbursements for alcohol will not be approved and group/residence funds cannot be used to purchase alcohol at this time. Also, alcohol is not to be consumed in residential public spaces under the shelter in-place order and students must not leave their residences to visit others either on or off campus per the Dean of Students guidance. We encourage students to remain social via virtual connections and to please practice safe and responsible behaviors with alcohol. OAPE has put together tips and guidelines on hosting virtual happy hours. In the meantime, online party planning training and online sober monitor training remain active. Thank you and stay safe wherever you may be right now. For questions, please contact Joe Kaczorowski at jkacz@stanford.edu
